

## Transparency in Health Care Prices

Vail Summit Orthopaedics is required by Senate Bill 17-065 to post the most frequent codes/procedures billed to patients. In order for VSO to comply with this bill we are providing our patients with a list of the 15 most billed codes.

All Healthcare pricing is an estimate and the actual charge for services is dependent on the circumstances at the time that the service rendered.

If you are covered by health insurance you are strongly encouraged to consult with your health plan to determine the accurate information about your responsibility for a particular service provided by VSO. If you are not covered by health insurance you are strongly encouraged to contact our billing office at 866-358-0202 to discuss payment options and potential self pay discounts available to you prior to receiving any services from VSO.
